The RETRO

Simple replacement of your existing light!

Available in award winning Ceramic Light Engine or Halogen.
Suitable to replace all major brands of pool lights.

Award winning Ceramic Light Engine

Model: GK7RX series

- Most efficient and brightest pool light on the market.
- A superior design of ceramic and L.E.D. technology (advanced Titan series), allows for efficient heat dissipation resulting in maximum light output.
- No globe changing required.
- L.E.D. life 70,000 hours approx.
- No cable joining required.
- No electrician needed.
- No need to empty pool.
- Kind to the environment, operates on 75% less energy than a normal halogen light.
- L.E.D. available in blue, green or white in a 12v or 24v model.
- L.E.D. available in a 10 program multicolour model.

Warning: multicolour model is only compatible with 12v AC transformer.

Halogen

Model: GK6RX series

- Available in 12, 24 and 32v models.
- Slim line. Diameter 238 mm, protrudes only 59 mm from the pool wall.
- Engineered custom designed lens and reflector to maximise spread of light beam.
- No cable joining required.
- No electrician needed.
- No need to empty pool.
- Interchangeable lenses available in blue, green, red magenta and clear.

Applicable to both models

- Choice of rim colours to match your pool or spa interior.
- Replaces all major brands of pool lights.
- Unique electrical connection so that power cable doesn't enter into the light cavity, eliminating water entry.
- For installation instructions refer to our website.
- 12 month warranty.
