### sleek

- Recessed design for minimal projection into pool
- Protrudes only 25mm for fibreglass installation
- Protrudes only 34mm for vinyl installation
- Pool cleaner friendly
- Compact diameter 120mm for fibreglass and 135mm for vinyl

### powerful

- Available in award winning ceramic light engine
- Latest design combined with our *PulseWave*® and *DuoSink*® technology
- L.E.D. life of 70,000 hours approximately
- Kind to the environment, operates on 80% less energy than a normal halogen light
- A unique combination of the ceramic light engine, *DuoSink*® and *PulseWave*® technology provides a compact, reliable underwater pool light, offering the brightest most efficient light engine on the market.

### innovative

- Unique electrical connection so power cable does not enter into light cavity eliminating possible sources of water entry
- Slotted rim allows water to flow behind the light to eliminate stagnate water and also aids in cooling
- Designed and manufactured in Australia
- Rated to IPX 8
- State of the art control system using *DuoSink*® and *PulseWave*® technology
- Detachable cable connection for ease of servicing and Retro fitting
- Installation of light guarantees an even pressure protecting your fibreglass shell
- Conduit take-off conforms to current regulations
- Built in self diagnostics

### modern

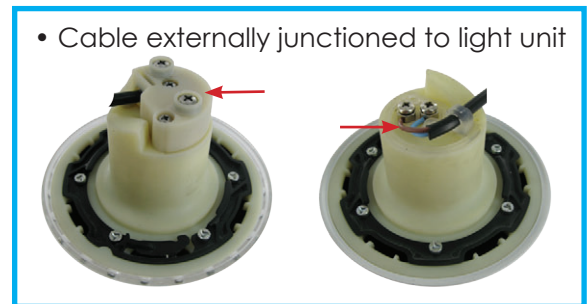

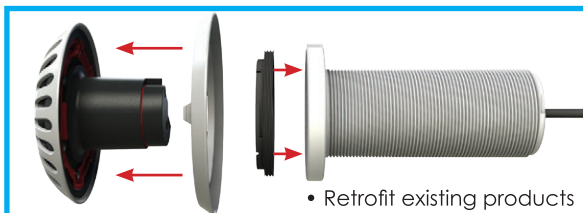

- No fixing screws
- A unique bayonet locking system
- All EM Series are supplied with a clear rim to maximise light output unless otherwise specified (option in white, grey or black)
- Slim line appearance
- Ceramic Light Engine available in blue, white and multi-colour

### effortless

- Simple installation, refer to website [www.spaelectrics.com.au](http://www.spaelectrics.com.au)
- Correct length of cable supplied to reduce voltage drop and ensure maximum light output
- No globe changing required for the Ceramic Light Engine series
- 12 month warranty

### 'THE RETRO' SIMPLE REPLACEMENT OF YOUR EXISTING LIGHT

- Suitable replacement for the PAL light - concrete and fibreglass pools
- No cable joining required
- No electrician required
- Will conform to your existing transformer
- Detachable cable connection for ease of Retro fitting

CAUTION LIGHT MUST BE WATER COOLED AT ALL TIMES. DO NOT SWITCH ON UNTIL LIGHT IS FULLY SUBMERGED IN WATER.
